

Why all the changes..?

Periodically, LADDS is updated to incorporate new or revised data elements or procedures. These changes help us comply with State and Federal data reporting requirements that, in turn, ensure continued program funding. In addition, many of the updates make LADDS more user-friendly and efficient.

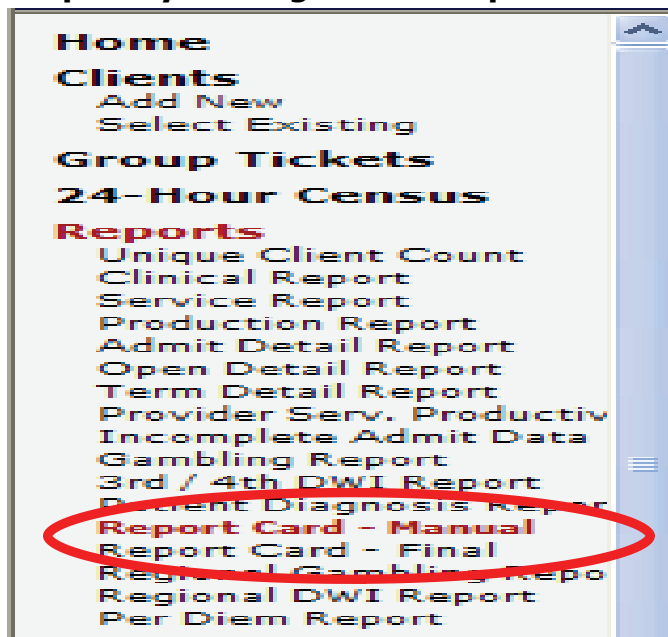

Report Card Updates

New features have been added to the Report Card.

Regions now have the ability to view their own Report Card data on a daily basis until the Official Statewide Report is posted. This can be accomplished by clicking on the "Report Card - Manual" link in the Reports section of LADDS. Any new Admissions, Discharges etc.. will update in real-time.

On the 15th of every month, the "Official Statewide Report Card" will be posted for the previous month. For example; on June 15th, the Report Card for the month of May will be posted. Once this is done, any new data for May added *after* June 15th will not be reflected on either report. The Final report will reflect what is currently in the system at the time it is run and cannot be changed. It is imperative that all reporting agents get their information in the system before this time.

You can obtain the Statewide report by clicking on the "Report Card - Final" link in the Reports section of LADDS

These changes will go into effect IMMEDIATELY.

Reminder: For faster responses, please use the "Feedback" button for any LADDS comments or concerns. **DO NOT** send emails directly to personal e-mail addresses.

For assistance with LADDS, contact your Regional LADDS System Administrator. For additional support, call the Statewide OAD Help Desk at (225) 342-3846, or send an email to OAD.HelpDesk@la.gov.
